900BENDY ENDOSCOPE

The 900Bendy Endoscope is a high-performance, dual-lens inspection tool designed for enhanced visibility and control in tight or hard-to-reach spaces. Ideal for professional environments like rail maintenance, it combines flexible 2-way articulation, HD imaging, and advanced illumination to deliver accurate, non-invasive diagnostics—anywhere you need them.

KEY FEATURES:

2-WAY
ARTICULATION

DUAL-LENS
CAMERA

THREE
VIEWING MODES

ADVANCED
LED ILLUMINATION

HD IMAGING &
COMPRESSION

BATTERY
POWERED

WHY IT'S IDEAL FOR THE RAIL INDUSTRY

The 900Bendy Endoscope is purpose-built for rail maintenance teams. Its compact size and articulating tip allow easy access to complex railcar components, undercarriages, and infrastructure, even in tight, dark, or hazardous environments.

- **Minimise Downtime** – Enables quick, non-invasive diagnostics to identify and resolve issues fast.
- **Enhance Safety** – Clear visibility and precise control reduce the need for disassembly or manual entry into confined areas.
- **Improve Reporting** – High-definition imaging and reliable documentation support thorough analysis and compliance.
- **Adapt On the Go** – Ideal for tunnel or trackside inspections with its portable, user-friendly design.

PRODUCT SPECIFICATIONS:

SPECIFICATIONS

ATTRIBUTE	VALUE
Camera Diameter	6.5mm
Probe Length	1.5m / 3M
IP Rating	IP67
Resolution	1920 * 1080
Battery Size	3000mAh lithium Ion
Battery Life (Approx)	4 hours (2 hour charge time)
Included	Camera unit, USB Charger cable, Instruction Manual.
Focal Depth	3cm - 10cm
Screen Size	5 inch display
Features	Articulating Probe, Side and Front Face Camera, Digital Video and Photo Recording, Adjustable LEDs, Time Display, Playback

OTHER FEATURES

- **Compact 6.5mm Camera Diameter**
Perfect for inspecting confined spaces without disassembly or disruption.
- **Portable & Battery-Powered**
Lightweight and designed for use in the field, supporting on-site inspections without the need for bulky equipment.
- **Compact 6.5mm Camera Diameter**
Perfect for inspecting confined spaces without disassembly or disruption.

Whether you're inspecting weld joints, electrical systems, or structural elements, the 900Bendy Endoscope is the smart choice for maintaining reliability and safety across your rail operations.
