SAFETY

# A greener step with the Eco-packaging

**GO GREEN**

INNOVATIVE **VISION**

# What is the Eco-packaging ?

Bollé Safety's new innovative Eco-Packaging removes all unnecessary plastic and paper and is available to all companies who wish to make a difference.. By purchasing products in bulk (20 units), companies act for a greener packaging without plastic.

## *Why is it sustainable ?*

With a box made of recycled and recyclable cardboard, and each product wrapped in silk paper, the eco packaging is the greenest packaging available on the market. To go the extra mile, we've printed our user instruction with vegetal ink directly on the cardboard box to eliminate paper use and ultimately, wastes.

## *ECO- PACKAGING*

**100%**  
**RECYCLABLE  
PACKAGING**

**30%**  
**LESS WASTE**

**VEGETAL  
BASED  
INK**

Does it impact  
the product's longevity?

## Absolutely not!

## Why hesitate any longer ?

## PLATINUM

PLATINUM is a high-end technology developed to provide anti-fog and anti-scratch performance in the most extreme environments. Our innovative coating is applied to both sides of the lens to provide maximum protection for your eyes. Imitated but not equaled, our exclusive PLATINUM coating exceeds the expectations of the most rigorous international standards. (EN166 K & N rated)

## PLATINUM LITE

A more economical version of our exclusive coating, PLATINUM Lite provides optimised anti-fog and anti-scratch performance for standard working environments.

## GO GREEN

NYLON FRAME MADE OF  
**RECYCLED**  
FISHING NET

Proud of our disruptive innovations, we launched in 2014 the first ever eco-frame compliant to EN166 standards with SOLIS B-Green. Six years later, **SOLIS GO GREEN** is the new generation of eco-friendly safety eyewear.
