LEADING ACCESS
SOLUTIONS

Who are Portaramp?

Portaramp are specialists in the design and manufacture of lightweight, portable access ramps and are recognised throughout the UK and parts of Europe as a market leader for access ramp solutions in the Rail Industry.

We design and manufacture compliant tailor-made *Safe Access* products to suit specific client requirements such as rail wheelchair ramps and evacuation ramps, and supply depots and maintenance teams fall protection solutions such as pit protection, train access platforms and overhead rigid rail safety line fall arrest systems.

Safe Access Solutions For The Rail Industry

DESIGN • BUILD • DISTRIBUTE • INSTALL • TRAINING • MAINTENANCE • ASSET MANAGEMENT

Rail Ramps & Storage Systems

Our rail ramps can be designed and supplied to almost any size and colour to ensure platform suitability.

All ramps are manufactured in accordance with Commission Regulation (EU) No1300/2014 Technical Specification for interoperability relating to accessibility of the Union's rail system for persons with disabilities and persons with reduced mobility. Our ramps are suitable for use at stations across the UK and Europe.

We also supply storage and locking systems for safe storage and rapid deployment. Ramps feature carry handles, safety side rails, and a slip resistant surface, guaranteeing safety for users and operators.

Inspection Pit Protection System

The PitProtect is a lightweight concertina inspection pit cover, created to safeguard open pits.

Designed to be robust, adjustable and quick and easy to deploy. The inspection pit cover protects against falls whilst still giving access to the underside of vehicles such as traction and rolling stock.

The system has been formulated with aluminium and is fully adjustable in both length and width; ensuring a perfect fit every time.

Portaramp Aftercare Service

Unlike Facilities Management companies, we have unrivalled knowledge and experience in everything Safe Access...

...we manufacture, distribute, install, inspect and maintain our portable, safe access ramps and safe access equipment; we built them, so we know what excellent looks like.

For more information about any of our Safe Access Solutions or Aftercare Services, please call today on **01953 681799** or email sales@portaramp.co.uk

Just Some of The Benefits of our Bespoke Solutions
