

Yeltech

We Manufacture Remote Condition Monitoring Units, Designed to Make Your Life Easier

Who Are We?

Yeltech Ltd stands as a beacon of innovation and progress since its inception in 2004.

Our journey has been one of constant evolution, driving forward the frontier of smart remote condition monitoring technology. With each step, we have contributed to the enhancement of industries through groundbreaking solutions.

As a trusted entity in the field, we specialise in providing bespoke engineering solutions that are not only practical but also effortless to install and cost-effective.

Our commitment to tailoring solutions to match the distinct requirements of our diverse clientele has solidified our position across various sectors.

From rail to buildings and structures, from water to environmental monitoring, our footprint spans wide, addressing the unique challenges each industry presents.

So, What Exactly Do We Bring to the Table?

- **CCTV Monitoring:** ensuring round-the-clock surveillance and security
- **Culvert and Drainage Monitoring:** offering insights into the integrity and efficiency of drainage systems
- **Rail Temperature Monitoring Units:** safeguarding railway infrastructure by keeping track of temperature variations

Eduardo Mendoza
CEO at Yeltech

- **Emergency Warning Boards:** providing timely alerts and communication during critical situations
- **Tilt and Noise Monitoring Solutions:** monitoring structural stability and environmental noise levels
- **Vibration Monitoring Solutions:** detecting and mitigating potentially damaging vibrations
- **Remote Track Void Monitor:** identifying and addressing track voids to maintain safety standards
- **Weather Stations:** keeping tabs on meteorological conditions for informed decision-making

These solutions represent our dedication to innovation and problem-solving, ensuring that our clients receive nothing short of excellence in their quest for efficient, reliable monitoring systems.

At Yeltech, our commitment to quality and reliability is not just a promise – it is certified. We proudly hold the esteemed ISO 9001 Certification, a testament to our

WE MANUFACTURE REMOTE CONDITION MONITORING UNITS, DESIGNED TO MAKE YOUR LIFE EASIER.

dedication to maintaining the highest standards across our entire product range.

But our pursuit of excellence does not stop there!

With an exceptional team, we specialise in the design and manufacture of intelligent remote condition monitoring solutions. By empowering maintenance engineers and asset owners, our solutions not only reduce costs but also safeguard lives.

What sets Yeltech apart is our relentless focus on innovation and adaptation. We understand that every customer is unique, with distinct needs and challenges.

That is why our entire team is dedicated to refining and customising our suite of services to deliver tailored remote monitoring products that not only meet but exceed expectations.

Driven by a commitment to continuous improvement, our engineering team is at the forefront of embracing technological advancements.

From harnessing the latest developments in wireless communication to leveraging the power of artificial intelligence, we ensure that our clients have access to the smartest solutions available.

At Yeltech, we don't just provide products – we provide peace of mind.

Our mission is not just a statement – it is a commitment to excellence. Rooted in our core values, we strive to be a trusted provider, offering cost-effective remote sensing solutions that redefine industry standards.

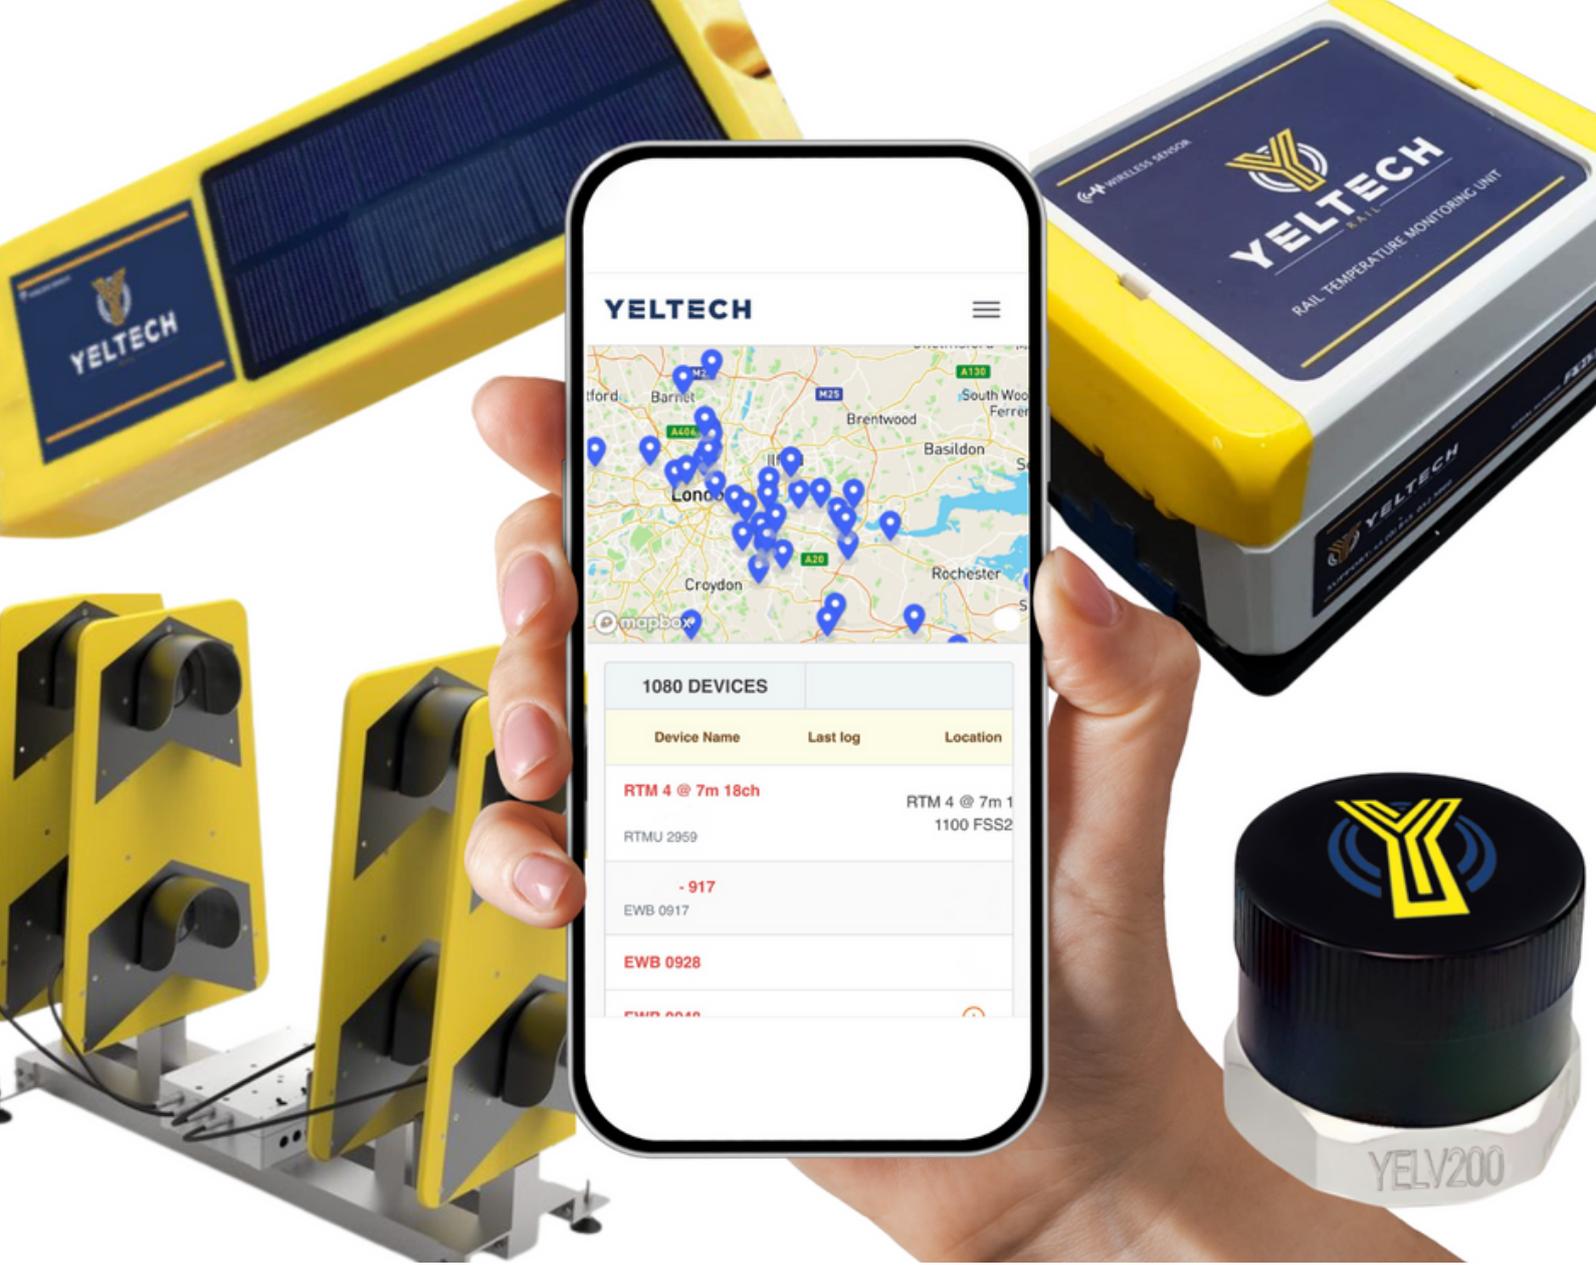

- Quality and reliability are not just buzzwords for us; they are the foundation of everything we do. With high quality control measures in place, we ensure that each one of our products meets the highest standards, delivering unparalleled performance and peace of mind to our clients.
- But we do not stop there. We are dedicated to enhancing safety through real-time remote access monitoring. Our cutting-edge systems are designed to provide instant insights, empowering our clients to proactively mitigate risks and safeguard their assets.
- When it comes to critical avoidance systems, you can trust Yeltech to deliver solutions that are not only safe but also dependable. Our advanced technology and meticulous engineering ensure that our products perform flawlessly, even in the most demanding environments.
- We believe in the power of anticipation. That is why our condition analysis and monitoring solutions are designed to identify potential failure scenarios before they occur, enabling our clients to take pre-emptive action and avoid costly downtime.

Our expert team is standing by, ready to answer any questions you may have and help you find the perfect solution for your remote sensing needs.

Join us on the journey towards smarter, safer and more efficient operations.
