

Marman Seals and Couplings

from

PowerSeal Solutions

A PowerRail Quality Company

"Uniting Innovation, Engineering, Manufacturing and Distribution"

PowerSeal Solutions™ is pleased to announce our new line of Marman Seals that offer exceptional reliability and STOPS LEAKS.

Our B-SureSeal Marman Seals are injection molded without any fillers, offering a pure and high-precision fit with true reliability. Made with new FKM and Viton® compounds, these seals have exceptional chemical resistance and improved performance over the competition.

Per ASTM D412-16 and D2240-15 testing, the PowerSeal B-SureSeal Marman Seals have greater tensile strength, superior elongation characteristics, and half of the compression set when compared to other seals on the market.

This independent laboratory testing has shown the PowerSeal B-SureSeal Marman Seals to have improved physical properties, which directly translates into improved performance.

- Made with pure FKM and Viton® A-type Family material - NO fillers
- Injection molded for pure and high-precision fit with true reliability
- Superior performance through operating temperatures from -20°F to +400°F
- Resistance to oil, fuel, and additives
- Remains flexible in service and won't "set" like standard seals

PowerRail also offers a full line of Marman Couplings and OEM grade and upgraded Viton® Power (High Temperature) Seals.

PowerSeal Solutions

A PowerRail Quality Company

Pipe is always measured by Inside Diameter (I.D.) - NOT Outside Diameter.
Because a Marman Seal sits on the outside of the pipe, the I.D. of the seal will be larger than the pipe size.
Always order based on the I.D. of the pipe, not the seal.

<u>PowerRail Part #</u>	<u>Description (I.D. of Pipe)</u>
E8479542PS*	Marman ½ Inch
E8479543PS*	Marman ¾ Inch
E8479544PS*	Marman 1 Inch
E8479598PS*	Marman 1¼ Inch
E8479599PS*	Marman 1½ Inch
E8479600PS*	Marman 2 Inch
E8479601PS*	Marman 2½ Inch
E8479602PS*	Marman 3 Inch
E8479603PS*	Marman 3½ Inch
E8479604PS*	Marman 4 Inch
E40068473PS*	Marman 5 Inch
E8406231PS*	Marman 6 Inch
