

FLEXFAB FLEXIBLE DUCTING AND CONNECTORS

Flexfab has over 50 years of expertise in flexible hose design. Today, we lead the way with a wide range of hoses that are industry or customer standards and custom design solutions.

We also have a large selection of flexible ducts that are optimized for cost and weight reduction. You can choose from standard diameters of 0.5" to 13" in a wide range of pressure capabilities. Or we offer custom diameters up to 24". Flexfab also offers a full range of insulations, as well as, quick-attach connectors that eliminate the need for clamps. And we can add acoustical treatments to our hoses, for sound absorption and improved thermal properties

Every application has both a technical goal and a commercial goal. Whether transferring air or liquids, Flexfab has a flexible solution to meet your needs.

Available Standards:

NFPA 130, EN 45545 R1 HL2
