

BEST CONTACTS FOR YOUR SUCCESS

## One-Stop-Shop

Telegärtner UK

# Product Shortform

Connectors, cable glands, enclosures, cables, speech & communication products and connecting systems

# Telegärtner UK – Experienced Distributor

Telegärtner UK is a key supplier & distributor in the resale market with years of experience supplying products to the professional electronics industry and resale customers. Our experience in supplier relationships and industry knowledge is used to offer vendor reduction services and to utilise various ways of controlling the stocking and shipping of components

including kanban or buffer stock arrangements, consolidated or split shipments, forecast or call off orders. With the help of our extensive product range across resale components and in-house manufactured cable assemblies, Telegärtner UK's aim is to offer a true one-stop-shop solution in order to help customers to optimise their supplier base and logistics.

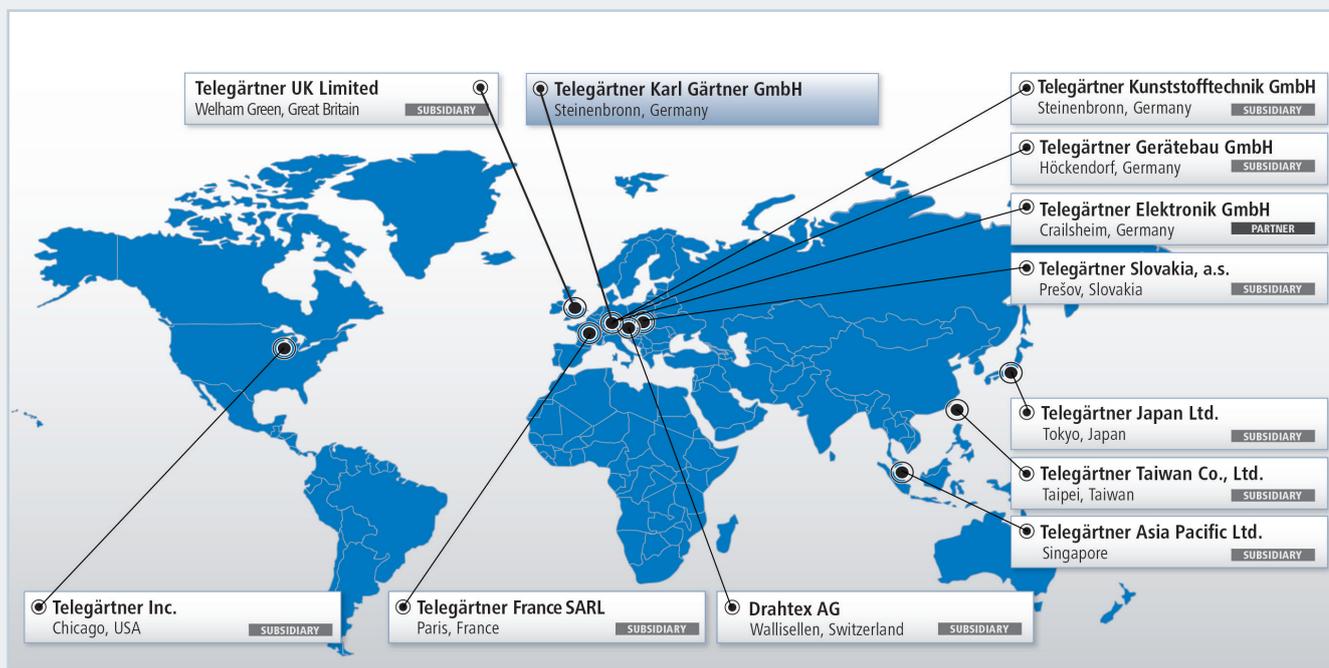

## Telegärtner can offer you:

- Extensive product range across resale components and cable assemblies
- One-stop-shop solution to optimise supplier base and logistics
- Kanban and buffer stock arrangements
- Consolidated or split shipments
- Forecast or call off orders
- Excellent customer service and support
- Extensive knowledge and experience in the resale industry and supplier relationships

## Telegärtner Group

Telegärtner UK is part of the German Telegärtner Group, a manufacturer of coax and datavoice components. Being part of the Telegärtner Group, Telegärtner UK also has the ability to use the Group worldwide network to facilitate global support of customers and the ability to use the other production facilities that cover turning of metal parts, plastic moulding and fibre cable assembly.

# Coaxial Connectors

Telegärtner coaxial connector range offers a variety of connectors in the RF and microwave industry, each designed for a specific purpose and application. All products offer strict adherence to international standards, are of the highest quality and performance and are available at very competitive pricing. Regardless of whether you need coaxial connectors for high

power transmission in the transmitting range, device-internal miniature connectors for electronic equipment or high-precision connectors for laboratory measuring instruments: Telegärtner can always offer you the right solution for your individual requirements and applications. Special developments according to customer specifications are also available.

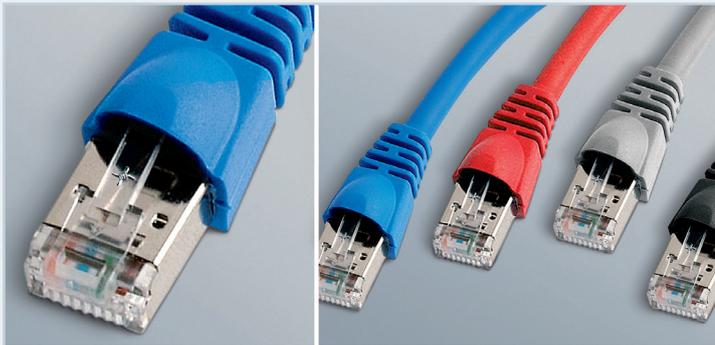

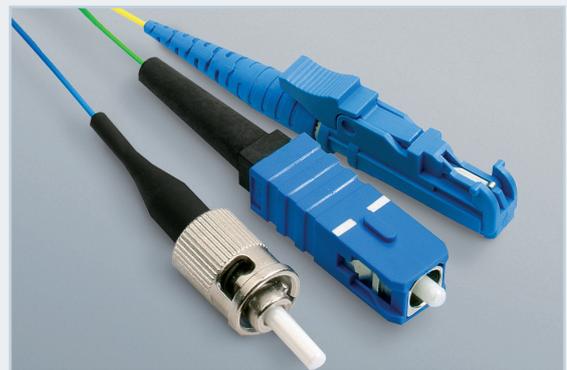

## Telegärtner can offer you:

- 1.6/5.6
- 4.3-10
- 7/16
- BNC
- F
- FME
- MCX
- Mini HD-BNC
- Mini-UHF
- MMCX
- N
- pH
- QLS
- SMA
- SMB
- SMC
- SMP
- SMS
- SSMB
- TNC
- UHF
- Cable Terminators
- Inter-Series Adaptors
- RF Combination Connectors
- Reverse-polarised Connectors
- RF Surge Suppressors
- RF Test Components
- Testline Cables
- Coaxial Cable Assemblies
- Accessories & Tools

# DataVoice Components

With Datavoice range, Telegärtner offers a reliable total solution for all structured cabling of office buildings, production sites and machines, long distance networks, data centres or home networks. Powerful, easy to install components for complete, simple and structured cabling of copper and

glass fibre networks as well as professional connectors for industry - all in the proven Telegärtner quality. Datavoice range offers a variety of products covering copper and fibre solutions such as RJ45 patch leads, MFP8 field assembly RJ45 plugs, FO connectors, patch cords and pigtails.

## Telegärtner can offer you:

- Connection Modules Cat.7A
- Modular RJ45 Plugs
- RJ45 Patch cords and Plugs
- Patch Panels, Distributors and Outlets
- Modular System AMJ-S/AMJ/UMJ
- RJ45 Connectors IP20
- RJ45 Surge Protection
- FO Connectors, Pigtails and Patch cords
- FO Outlets and Patch Panels
- FO Wall Boxes and Splice Boxes
- FO Ready-to-install Fibre Optic Links
- FO MPO/MTP® Cabling System
- FO Splice Cassette System SAM
- FO Termination Tools and Accessories
- TOC – Outdoor Connectors
- DIN 41618/41622 Connectors
- M12x1 Connecting Cable
- Copper Installation and flexible cables
- Data Cable Assemblies
- Termination Tools

# Circular Connectors

Binder is a leading German manufacturer of high quality circular connectors for industrial, sensor, automation and measurement applications. The comprehensive binder range offers a wide selection of circular connectors from M5 to M25, including subminiature, miniature, power and automation

technology connectors. Customer-specific solutions are also available broadening the product offering even further. With a range of 5000 catalogue items, 3000 designs as well as 500 customised parts, binder offers a suitable solution for nearly every industrial application.

## Telegärtner can offer you:

- Power Connectors
  - M23 Power
  - Bayonet IP40 Power
  - M25 Power
  - RD24 Power
  - Bajonett HEC Power
  - RD30 Power
- Automation Technology
  - M5, M8
  - M12-A, -B, -D, -X, -S, -T, -US
  - M18
  - 7/8"
  - Connecting cords
  - Distributor
  - AS Interface
  - Actuatorics Solenoid Valve Connectors
- Subminiature Connectors
  - Snap-in IP40
  - Subminiature Snap-in IP67
  - Subminiature Bayonet IP40
  - Subminiature Micro Push-Pull IP67
  - Subminiature Push-Pull IP67
  - Subminiature M9 IP40
  - Subminiature M9 IP67
- Miniature Connectors
  - Miniature Snap-in IP67
  - Miniature Bayonet IP40
  - Miniature Bayonet NCC
  - Miniature Push-Pull IP67
  - Miniature M16 IP40
  - Miniature M16 IP67
- Circular Connector Cable Assemblies

# D-Subminiature Connectors

FCT is a German manufacturer of high quality D-subminiature connectors, hoods and accessories. The FCT range offers metal, plastic and non-magnetic hoods in various shell sizes and designs. Their extensive D-subminiature connector range includes standard, dualport, mixed layout,

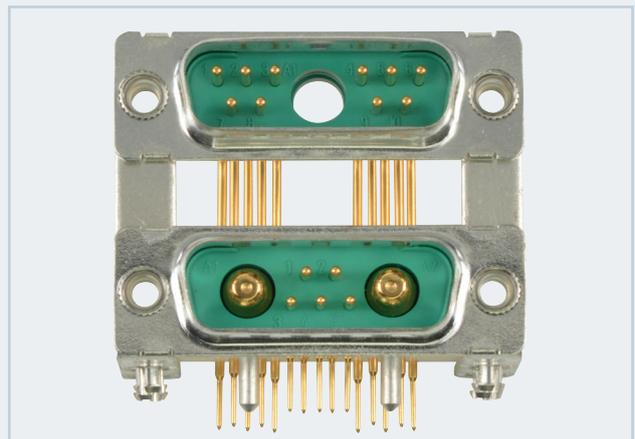

crimp, high density, filter and IDC ribbon connectors and non-magnetic, steel and waterproof versions. Customised connectors are also available alongside a large selection of accessories, including spring locks, latch locks, snap-fit locking hooks, dust/protection caps and many more.

**FCT**  
a molex company

## Telegärtner can offer you:

- Metal, Plastic and Non-magnetic hoods
- D-Sub standard connectors
- D-Sub dualport connectors
- D-Sub crimp connectors
- D-Sub mixed layout connectors
- D-Sub high density connectors
- D-Sub filter connectors
- D-Sub power connectors
- D-Sub IDC ribbon connectors
- Steel free connectors
- $\mu$ TCA Power Connectors
- According to type M in line with EN 60603-2 connectors
- Spring and latch locks
- Snap-fit locking hooks
- Guide plates
- Dust/Protection caps
- Knurled thumb screws
- D-Sub cable assemblies

# D-Subminiature & M12 Connectors

Provertha is a well known producer and supplier of electromechanical parts which makes the data and signal transfer in networks with high demands even safer. Provertha concentrates in quality D-Sub connectors, M12 connectors, & variety of hoods and also on customer-specific solutions.

Provertha has an extensive Field Bus connector range with a selection of Profibus, CAN-Bus and Profinet connectors, for rail and automation industry applications. Their wide range of D-Subminiature connectors and hoods compliments the product offering providing solution to all applications.

**PROVERTHA®**  
CONNECTORS, CABLES & SOLUTIONS

## Telegärtner can offer you:

- Field Bus connectors
- Profibus connectors
- CAN-Bus connectors
- Profinet connectors
- Wire to board connectors
- Plastic, metallized and diecast hoods
- D-Sub standard connectors
- D-Sub mixed layout connectors
- D-Sub high density connectors
- D-Sub filter connectors
- D-Sub power connectors
- D-Sub for PC assembly
- D-Sub for IDC flat cable
- D-Sub cable assemblies

# Cable Glands & Enclosures

Hummel is a renowned German manufacturer of cable glands for industry and explosion protection areas, industrial box enclosures and complete systems including electronics, front panels, machining and accessories, as well as signal, power and data connectors from M8 to M40 for automation and drive

technology. For over 60 years, HUMMEL AG has stood for quality - "Made in Germany" and with their worldwide network of distributors and subsidiaries they are the preferred manufacturer when it comes to joining techniques in the electrical engineering, electronics and heating fittings industries.

## Telegärtner can offer you:

- Industrial Cable Glands in brass, stainless steel and a variety of plastics
- Industrial Ex Cable Glands for potentially explosive areas in polyamide, brass and stainless steel
- Heavy-duty "Hazardous area" Cable Glands for oil platforms, gas production plants and offshore
- Industrial Enclosures made of polycarbonate, ABS, aluminium, polyester, steel and stainless steel
- Circular Plug-in connectors for applications in industry, transport, power generation, ship building, medicine, etc.
- Conduit Systems for industrial applications for cable protection

# Coaxial cable

Telegärtner UK's cable suppliers design and manufacture high performance coaxial cables, consistently exhibiting technical competence in Broadcast & Telecoms markets. For radio and broadcast applications Bedea offers standard 50 Ohm RF coaxial cables in different dimensions and shapes.

They also offer a range of cables for VSAT, WLAN, RFID and other radio services. Habia offers a wide selection of standard, miniature and subminiature coax cables in 50 Ohm, 75 Ohm and 95 Ohm impedances and is renowned for their high quality coaxial cable ranges, such as Flexiform, Speedflex and Multibend cables.

## Telegärtner can offer you:

- RF & RG/U coaxial cable
- Low loss coaxial cable
- Semi-rigid coaxial cable
- Conformable cable
- Multi-coaxial cable
- Corrugated coaxial cable
- Low loss corrugated coaxial cable
- Custom designs

# Multiwire Cable

Telegärtner UK's cable suppliers offer low voltage, single core equipment wire to halogen free, UL rated multiple pair cables, all manufactured to the highest quality & international standards and tested to the tightest of specifications. Hew-Kabel designs and manufactures customer-specific cable

solutions for various industrial market segments, where miniaturization, flexibility or special durability are required. Kroschu specialises in automotive and industrial cables, offering solutions for a variety of applications within safety, drive & automation, data & sensors, medical engineering and audio & video areas.

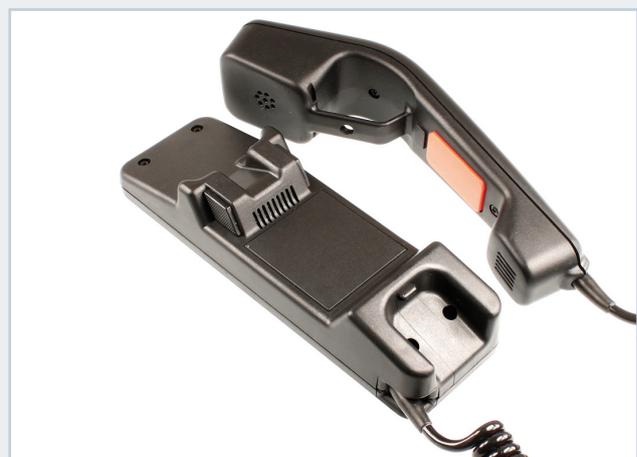

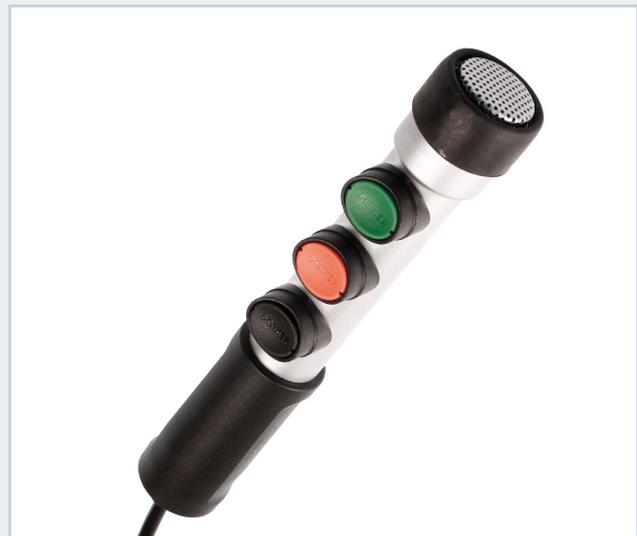

## Telegärtner can offer you:

- Multicore or twisted pair
- Screened or unscreened
- Halogen free or UL
- High temperature
- Silicone
- Mains harmonised
- Equipment wire
- 2mbit indoor and outdoor

# Speech and Communication

Pei tel, a member of the peiker group, specialises in developing and producing high quality communication solutions and radio accessories. Their extensive professional mobile radio (PMR) range of products are specifically designed for use in public

safety, industrial, mass transit, automotive and other related applications. The PMR product range encompasses various types of microphones, handsets, speaker microphones and loudspeakers as well as intercom systems installed in helmets.

 PEI TEL

## Telegärtner can offer you:

- Hand Microphones
- Microphone Heads
- Gooseneck Microphones
- Hands-free Microphones
- Remote Speaker Microphones
- Handsets and Cradles
- Charging Cradles
- Headsets
- Desktop Systems
- Loudspeakers
- Push-to-Talk Buttons
- Accessories

# Connecting Systems

Procar has been developing, producing and distributing high quality 12-24 Volt range connecting systems for 25 years, providing customers with safe connections for on-board electrical systems in cars, trucks, mobile

homes, motorbikes as well as boats. The Procar range has been broadened further by specifically focusing on developing products for mobile applications through modern LED lighting and USB charging technology.

**PRO CAR**  
AUTO- UND BOOTSZUBEHÖR

## Telegärtner can offer you:

- Charging cable with USB connector and USB sockets
- Connectors with large socket connector (internal Ø 21 mm)
- Socket connectors, twin socket connectors, triple sockets and extension cables with contacts according to DIN ISO EN 4165
- Universal and safety universal plugs 1 A – 16 A for cigarette lighter and standard sockets
- Universal angular plugs with function control for mobile phone network and electrical accessories 7.5 A according to DIN EN ISO 4165
