

INFODEV

Electronic Designers International

AUTOMATIC PASSENGER COUNTING, SCHEDULE & PERFORMANCE ANALYSIS, ITS INNOVATION.

For : Buses, Trains, Trams, Subways, Railways
or Bus Stations and Buildings.

WWW.INFODEV.CA

About

Since 1993, Infodev creates, manufactures and installs (APC) Automatic Passenger Counting System for buses, trains, trams, subways, stations and buildings. A complete system using a **unique ingenious bolt-on design with innovative accuracy validation process** has been in operation for years at major public transits worldwide. **This field proven system delivers exceptional accuracy, is easily installed and requires very low maintenance.**

Our real-time APPS, WEB APC and Trip Schedule Analysis tools provide you tomorrow's reporting information. This data will help improve user satisfaction, optimize your costs and ROI, adapt your schedule and transit network to reality, as well as prevent fraud ; all in a context of a sustainable planet.

We would be pleased to advise you on our intelligent transport products and turn-key solutions for smart cities

97.5% to 99.5%
Accuracy from **Pure Counting Data**
in an Uncontrolled
Transit Environment.

OUR SPECIALITIES

- ✓ Automatic Passenger Counting
- ✓ Real Time Occupancy
- ✓ Intelligent Transport System
- ✓ Smart Transit Mobility
