

**Your single source
locomotive solution provider**

Founded in 1966 , INPS Group has facilities through North America and Mexico.

Through the INPS Group of Companies our mission is to be your single source provider. Whatever your requirements we have the solution. INPS is a versatile and virtually unlimited manufacturer and provider of components for a large variety of industries. Through our in-house capabilities and numerous partner companies under the INPS Group, we provide full-scale component acquisition and design services to clients ranging from the largest industry players to smallest of niche businesses. No other provider seamlessly integrates itself into your company like we do.

Design, engineer, produce and install products to a variety of markets

Providing new solutions, sales and service of parts for Transit

Certified components protecting your assets

Locomotive A/C Systems and Auxiliary Power Units

Signal case replacement systems for rail

Vehicle wraps, architectural finishes, corporate office resurfacing

Polymer coated webbing canine leashes, collars and harnesses

OUR COMPANIES

Anti Graffiti Multi-layer film

LLEPM (Low-Level Exit Path Markings) and HPPL (High Performance Photoluminescent)

The revolutionary can carrier for high intensity sports and outdoor activities

OUR BRANDS

Your single source locomotive solution provider

INPS GROUP has global distribution for the following products:

- Air Conditioners for Locomotives
- Auxiliary Power Units for Locomotives
- Wraps for Locomotives
- Sound Damping for Locomotive Cabs
- Interior Components (Thermoformed, Fiberglass and HPL Panels)
- LED Illuminated Overlays for Locomotive Control Panels
- Interior Graphics for Locomotives
- Conspicuity Tape
- AEI Tags
- Window Anti-Graffiti Film
- High Performance Photoluminescent (HPPL) egress decals
- Anti-skid / Safety Walk for Locomotive Safety
- Strategic sourcing & Engineering Solutions for Freight Locomotives

Non Inverted Air Conditioners (A/C)

Our air conditioners for locomotives offer a unique Modular Design for easy operations during the Maintenance or Replacement of a component. Each component is lightweight, offering easier installation and lower labor cost to the installer. This locomotive A/C unit has 72VDC power and no inverter.

Auxiliary Power Units

INPS IEP (Environmental Products) Auxiliary Power Units allow companies to save on fuel for their locomotive transit vehicles without sacrificing crew comfort. Our proprietary Banana Auxiliary Power Unit is designed to reduce excess idling, save fuel, reduce locomotive engine wear and keep your crew comfortable – a true win-win for everyone.

Reduce your cost, your downtime, and your VOCs with our locomotive wraps.

Don't Paint It — Wrap It!

Say goodbye to the days of multiple paint coats, long turnaround times and related safety concerns, including high VOC emissions.

Our locomotive wraps, which meet regulatory and compliance requirements, can help you achieve reduced downtime with faster installing films and protective coverings.

Fast, cost-effective and environmentally friendly.

Benefits of Wrapping

AMERICAN - American made material, installed by Americans

COST - half the price of paint and eliminates the need for a paint shop

LOOK - virtually indistinguishable from paint

CONVENIENT - we come to your facility and complete on-site

FAST - from start to finish approximately 1 week*

WARRANTY - covered by the most comprehensive finished graphics warranty in the industry.

LONG-LASTING

* under normal conditions

Sound Damping

INPS' Quiet Ride Sound Damping System reduces noise and vibration inside the cabin environment, making work more pleasant for your employees. This multi-layered panel system can be easily installed inside the locomotive by your staff. Sound Damping for Locomotive Cabs cleans up the look of the cabin interior and is custom-made to fit all locomotive models. Our sound damping products are compliant with all current industry standards, are fire retardant, as well as scratch and dent resistant.

Fiberglass Components

INPS services our customers with the problem solving capabilities that they deserve. We are continuously developing innovative and maintenance friendly solutions for mass transit vehicles including: Interior fiberglass panels, fiberglass ceiling panels, Window freezes and arc shields. From a CAD drawing, INPS designs a mold and makes a part from start to finish. Options include: decorative laminate and inlay, charging stations, integrated mounting hardware options, integrated metal component options, vacuum formed laminate with infused fiberglass options as well as anti-smoke, anti-fire and low toxicity.

LED Illuminated Overlays for Locomotive Cabs

INPS' backlit displays on control panels are manufactured with high impact acrylic, laser orrouted to shape with an embedded LED lighting. Assembled, painted and polycarbonate overlay applied. Our control panels are Illuminated with a dimmer switch, for night time readability.

Interior and Graphics for Locomotives

INPS' Locomotive Division is the leading manufacturer of interior graphics for rail cars. INPS offers a large range of custom interior components for the International rail vehicle industry. Braille and raised letter plates, braille signage, passenger car labels, passenger safety pamphlets for train cars, laser etched labels, locomotive control panels, advertising frames, instructional and safety signage for new or refurbished railcars. Exterior graphics include stock and custom exterior graphics for passenger cars. INPS manufactures high quality, reflective exterior graphics; from full vehicle wraps to safety decals and name plates.

Conspicuity Tape

Innovative Brands:

- 3M™ • Reflexite • Avery
- Available in a variety of lengths and colours to meet your needs
- Improves vehicle visibility
- Detection at dawn, dusk and at night
- Railcars and locomotives meet the FRA 224 Standard

AEI Tags

Local and Mobile Programming

- AEI (Automated Equipment Identification) Tags
- AT5118 Standard
- AT5133 High Temperature
- Programmed
- Non-programmed
- Mobile programming services are available

Window Anti-Graffiti Film

INPS 3M Scotchgard™ Multi-Layer Protective Film 1004 includes four separate layers of optically transparent, pressure-sensitive polyester film tape designed to protect surfaces from intentional and unintentional damage caused by scratching, etching, abrasion and graffiti. Passenger Car window Anti-Graffiti Film allows a damaged film layer to be quickly and easily removed, exposing a fresh protective sheet.

High Performance Photoluminescent (HPPL) Decals for Rail Car Egress

INPS FIREFLY™ has developed turnkey solutions that include Emergency Signage for Egress/ Access of Passenger Rail Equipment. INPS' High Performance Photoluminescent decals not only comply with the latest industry standards, but have set the bar in HPPL decals. The end result is a durable and easy to clean decal which meet or exceeds rail car regulations providing clear and concise directions in the case of an emergency. In consultation with industry leaders, FIREFLY addresses the needs of safe evacuation from rail cars, buildings or transportation corridors.

Anti-skid for Locomotives

3M™ Safety-Walk™ Slip Resistant Tapes and Treads Series 600 has been certified by the National Floor Safety Institute (NFSI) as providing “high-traction.” A wet static coefficient of friction (SCOF) of greater than 0.60 was chosen by NFSI as the criteria for “high traction” because according to NFSI, floor surfaces maintaining this level of slip resistance when wet have proven to reduce slip-and-fall claims by between 50% and 90%. This mineral coated, slip resistant material features a highly durable white surface suitable to be printed.

Strategic Sourcing & Engineering Solutions for all Freight Locomotives

Combining ADP's 30 years of locomotive expertise and INPS's manufacturing capabilities, together we offer a variety of products and services under the INPS Group of Companies. ADP's main focus on products is critical engine components and electrical rotating equipment of which we offer technical expertise, services and/or subcontracting manufacturing.

Our team of 480 professionals located in Canada, United States and Mexico, plus our ability to offer sales and support in Europe gives us the ability of being a true manufacturer with a global reach to service the transit industry. Utilize our total solution approach within your organization. Work with a trusted partner in the industry.

Let INPS Be Your Single Source Provider

Through the INPS Group of Companies our mission is to be your single source provider.
