

M3S[®]

A soil reinforcement solution
with cell geotextiles

SOL *∫* **SOLUTION**
Solidly-based innovation

AFITEX
Down-to-earth intelligence

1

UNFOLDING

2

BACKFILLING

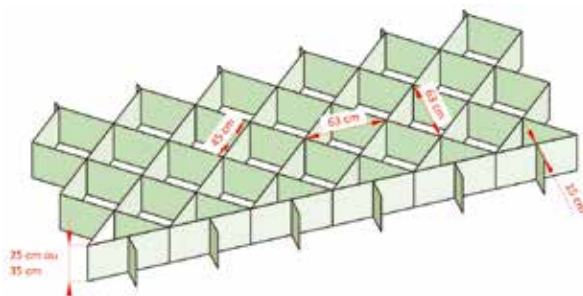

3

COMPACTION

→ Adapted to all kinds of grounds

- Low bearing capacity soils
- Restricted access areas
- Reuse of excavated and natural materials

INSTALLATION WITH SIMPLE EARTHWORK EQUIPEMENT

4

STRUCTURE AND FACING TYPES

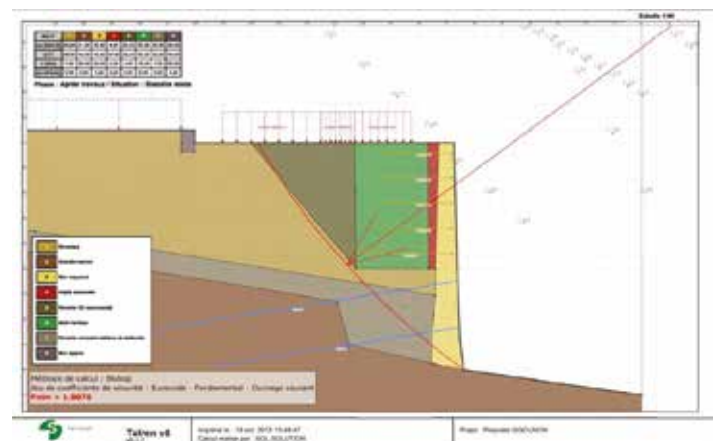

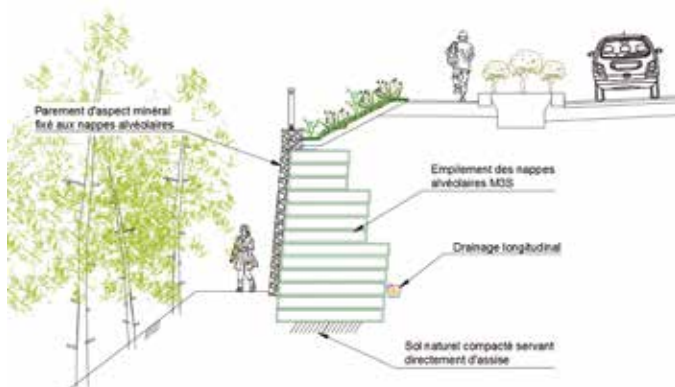

Multiple Facings possible

- Vegetalized, mineral or masonry facings
- Tilted and vertical facings
- Various designs (curves, benches...)
- Facilities (railings, stairs...)

Sol Solution guides you

- Assisted conception
- Supply of alveolar layers
- Supply of facing structures
- G3 geotechnical design survey (NF P94500)
- Installation assistance on site
- Installation control

Applications

ENLARGMENTS AND RETAINING WALLS

LANDSCAPING AND SPORT COMPLEXE

DAM AND BANK

RAILWAYS

LANDFILLS

CONTAINMENT
