

# Aon Global Rail Infrastructure

## **We Understand Your Industry**

Rail practice team members are experienced in helping Class I, regional, switching operations, terminal, transit and short line railroad clients find business solutions to their risk management and insurance placement needs.

Aon's rail practice offers more than 100 years of experience with the placement of hundreds of millions of dollars in railroad premium in the global insurance market.

Our years of experience and global reputation for providing quality services have earned Aon a high standing with both the railroad industry risk-management community and the underwriters of rail-related business.

## **Innovative Solutions for the Transit Industry**

Our practice has been helping the transit industry manage risks for more than 100 years. Our worldwide team consists of dedicated professionals with the expertise to assist you in reaching your risk management goals. With careful attention to detail, we ask the right questions to learn the intricacies of your risks. We work with you to conduct a careful assessment of your risk management needs and create a customized program designed to protect your investment.

Our years of experience and global reputation for providing quality services have earned the Aon Transit Practice a high standing with both the transit industry risk management community and the underwriters of transit-related business.

## **Global and Local Expertise**

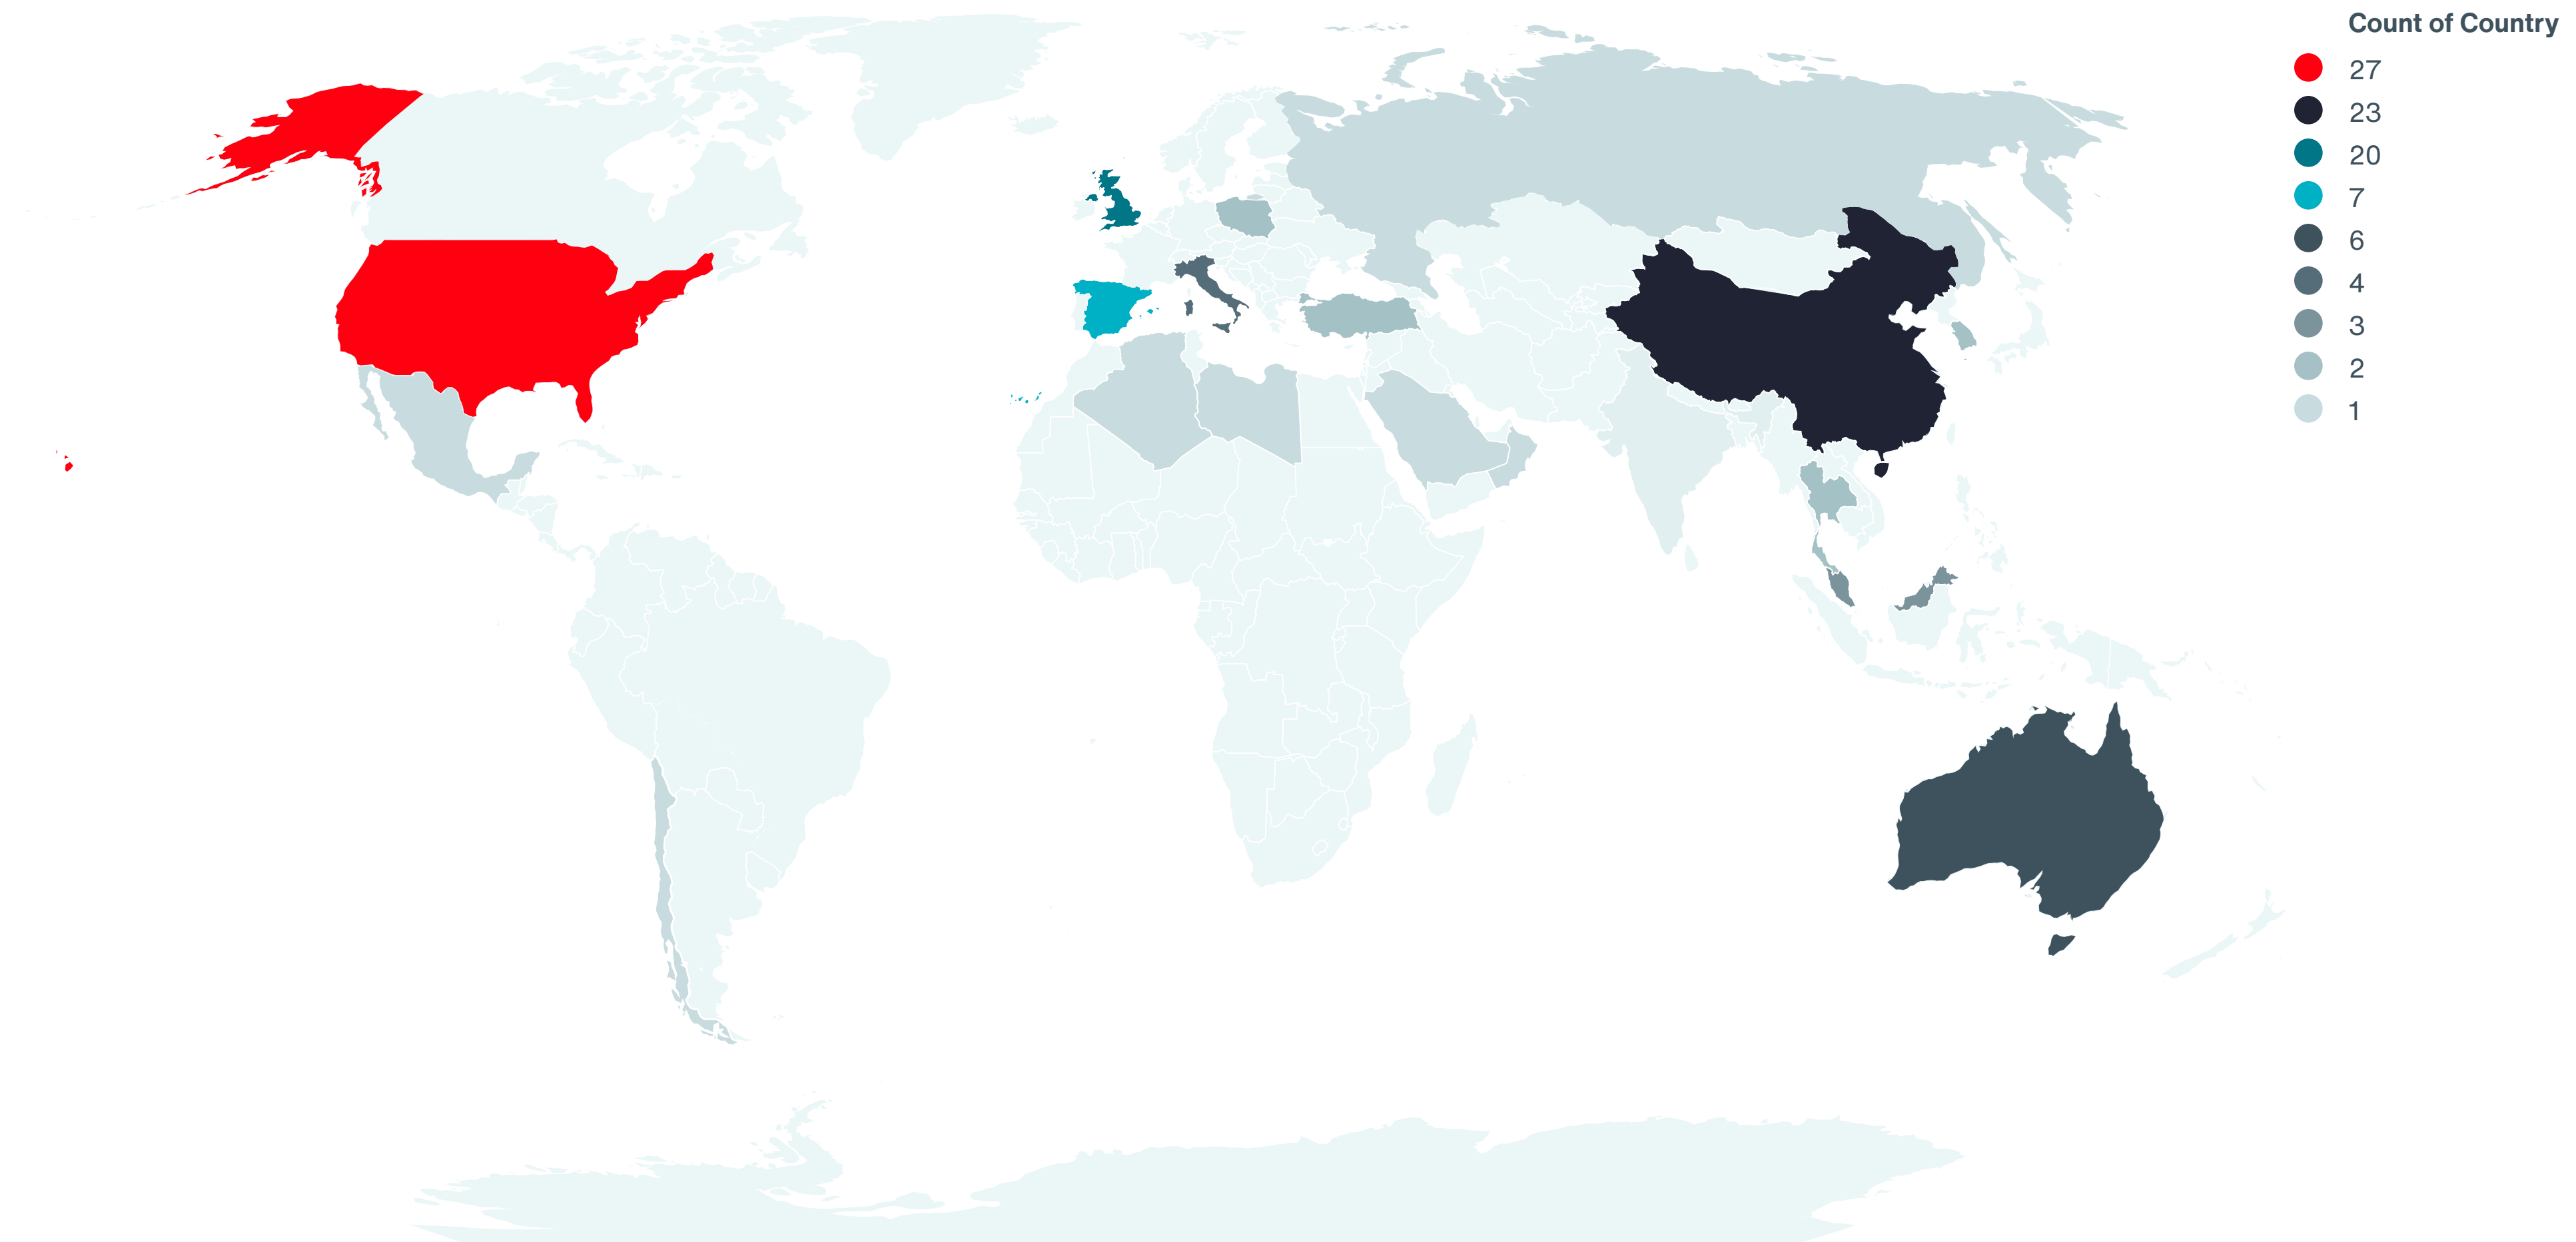

Aon subsidiaries and divisions serve clients in 120 countries and sovereignties, including more than 50 offices throughout the United States.

Aon is unmatched in our demonstrated experience in all rail and rail-related exposures. Our proven core strengths include program design, risk control, claims advocacy and global expertise. Always looking for creative ways to better serve our clients, our rail professionals offer a wide selection of products and services.
